

Project BRAVO: Phase 2 Forms

Effective December 1, 2021, Magellan of Virginia has made changes to certain forms to align with Project Bravo Behavioral Health Enhancement. The Magellan of Virginia Registration Form has been updated to include the following additional services, which will be available beginning December 1, 2021:

- Mobile Crisis
- 23 Hour Crisis Stabilization
- Community Crisis (The first 8 hours/32 units is a registration. Anything additional requires a Service Request Authorization or SRA be submitted.)
- Residential Crisis Stabilization Unit (The first 5 days/5 units is a registration. Anything additional requires an SRA be submitted.)

Magellan of Virginia will be using the Department of Medical Assistance (DMAS) approved SRA forms for all Project Bravo services that require an authorization. This includes the form for Applied Behavior Analysis (ABA). The Behavior Therapy form will no longer be accepted for requested start dates of December 1, 2021, and later. The [Magellan of Virginia Registration form](#) will be required for all services that require a registration. Failure to submit the correct form will delay or prevent the processing of your request.

All required forms are on the [Forms](#) page under “For Providers” on www.magellanofvirginia.com. If you would like to submit any of the forms for approval in your Electronic Health Record (EHR), please email them to vaclinicalquestions@magellanhealth.com.

Authorization and registration forms for Project Bravo services can be submitted using our online provider portal at www.magellanprovider.com. Permission is required to fax.
