

IACCT Provider List

The list below represents providers with ability to perform face-to-face IACCT assessments in each locality. Providers may have capacity to perform assessment via telehealth in addition to their localities in the list below. Magellan Residential Care Managers work closely with providers to coordinate referrals based on their availability. Please note that if more than one provider is listed as a contracted entity for a locality, Magellan will first reach out to the Community Services Board (CSB) and then the private provider contracted. The IACCT process must be responsive to the time sensitive needs of youth who may require residential services. Magellan expects that the Licensed Mental Health Professional (LMHP)¹ on the IACCT will reply to Magellan outreach within 24 hours to confirm whether they will be able to assist with the assessment.

¹ LMHP includes LMHP-Resident (LMHP-R), LMHP-Resident in Psychology (LMHP-RP) and LMHP-Supervisee (LMHP-S).
