

Provider Notice

Participate in VA Interview on Medicaid Telehealth

This communication is being sent on behalf of the Virginia Department of Medical Assistance Services (DMAS)

George Mason University is collaborating with Virginia Medicaid to conduct interviews with providers like yourself as part of a study funded by the National Institute for Health Care Management Foundation. We want to understand how Virginia's Medicaid telehealth policies can be adapted to advance health equity in mental health, substance use, perinatal care, and early intervention services.

We would like to **schedule a 30–45-minute interview in the next 7-14 days, over Zoom or by telephone. To select your interview time, click on this link:** <https://calendly.com/jjones73/gmu-telehealth>. If you would like someone else in your organization to participate, please share this information. As a token of appreciation, a participant will receive a \$50 Visa gift card.

Participation is voluntary, and you can refuse to answer any of the questions as we go along. We won't associate any answers with you specifically. Instead, we are looking for general themes. There are no costs or foreseeable risks for you to take part in this study.

If you agree to participate, you will need to review a consent form. If you have questions about our study, you can contact Dr. Alison Cuellar at aevanscu@gmu.edu (IRB# 1866617-1).
