

Provider Notice

Updates to the Magellan Registration form have been made to notate that Community Stabilization (S9482) is only a registration for initial requests for admission dates of 8-31-22 and prior. We have also added Crisis Stabilization (H2019) and Crisis Intervention (H0036) to our updated form to allow for submission of retroactive requests. Both Crisis Stabilization and Crisis Intervention terminated effective 11-30-21.

Providers are required to submit most registrations online at www.magellanprovider.com. Submission of registrations online do not require uploading the Magellan Registration form. Retroactive requests for Community Stabilization, Crisis Intervention and Crisis Stabilization must be faxed using the Magellan Registration Form. Any other faxes require permission to fax. Providers can call 1-800-424-4046 for permission to fax.

Providers can locate the updated Magellan Registration Form on the [Forms](#) page on www.magellanofvirginia.com.

Please remember that all requests for Community Stabilization with admission dates of 9-1-22 and later require an authorization, not a registration.

If you have any questions, please utilize the [Contact Us](#) page on www.magellanofvirginia.com or call 1-800-424-4046.
