

Provider Notice

Magellan of Virginia is conducting a quality improvement activity to review Behavioral Health Provider coordination with Primary Care Providers (PCP). As part of this initiative, we are requesting provider assistance to determine barriers to PCP coordination. You may have responded to a recent general survey about coordination of care. This is a separate survey that specifically focuses on PCP coordination.

Please click [here](#) to access a ten question, anonymous survey about coordination with PCPs. Your answers will help us to gauge what providers are doing now to coordinate and what barriers they may be facing. We value your feedback and hope that you will take advantage of this opportunity to take part in a larger, ongoing effort to enhance quality of care.

The survey can also be accessed at the link below. Please complete by close of business on **Friday March 31, 2017.**
