

## Provider Notice

This is an update to Magellan's March 15, 2017 communication about upcoming meet and greet sessions for the Residential program changes. Information is final for the northern region – please see all details below.

To continue to build partnerships and strengthen relationships, Magellan will host several meet and greet sessions with Community Services Boards (CSB) and Family Assessment and Planning Teams (FAPT). During these sessions, Magellan will listen to stakeholders, learn about available resources in each community, welcome questions and clarify processes.

Magellan of Virginia invites you to attend meet and greet sessions related to the Residential Treatment program changes and Independent Assessment, Certification and Coordination Team (IACCT).

All CSB and FAPT representatives involved in the Residential Program and IACCT changes are encouraged to attend a meet and greet session in their region. If you are unable to attend the session in your region, please attend one that is convenient for you.
