

Provider Notice

The 2014 Appropriation Act requires that the remittance that normally would be paid on Monday, July 3, 2017 will instead be paid on Monday, July 10, 2017.

This annual delay was originally communicated in our Medicaid Memo of May 14, 2010. All claims will be processed as usual based on the date they are received. Furthermore, providers will be able to verify claims status information via Magellan's provider portal without disruption.

Providers should plan accordingly and prepare for this delay in claims payment. DMAS will not issue advance pays associated with this delay.
