

Provider Notice

Magellan of Virginia wants to ensure that all members receive the needed services and supports to assist them on their recovery journey. It is critical that discharges are submitted for members to receive timely treatment, ensure continuous service availability, and decrease any potential delay in the initiation of services by a new provider.

Please take a few minutes to complete a brief (five-question) survey related to discharge submissions.

This survey will provide us with valuable information on how Magellan can help support providers in the discharge process. **Please note that responses to survey questions are anonymous.**

Please access the survey at the below link and complete by close of business on **Monday July 10, 2017.**
