

Provider Notice

Peer specialists who are serving within Intensive Community Treatment (ICT) interdisciplinary teams and provide peer supports as a component of the ICT program **do not** have to follow the requirements set forth in the Peers Services Manual Supplement. There are **no** changes to the service delivery requirements or billing for ICT.

If an Licensed Mental Health Professional (LMHP) recommends that a member receiving ICT meets the medical necessity criteria for additional Peer Support Services beyond the peer services that are embedded in ICT and the member agrees to the additional peer service, the provider would need to meet the requirements set in the Peers Services Manual Supplement and coordinate with the ICT provider to avoid duplication of services.

If you have any questions, please send an email to SUD@dmas.virginia.gov
