

Provider Notice

Magellan of Virginia is pleased to announce an exciting new contracting opportunity for crisis stabilization providers. The Independent Assessment, Certification and Coordination Team (IACCT), launched on July 1, 2017. Magellan now serves as a single point of entry for youth at risk of admission to psychiatric residential treatment. For all Medicaid funded psychiatric residential admissions, referrals are made to Magellan, at which point the IACCT assesses medical necessity to determine the appropriate level of care and coordinate as appropriate. This team consists of various professionals who collaborate to provide assessments or assist in gathering medical and behavioral health treatment records used to fully assess the youth and family needs in order to formulate a preliminary plan of care.

The IACCT is essential in finding the most clinically appropriate and least restrictive setting for the member. It also ensures care is provided in a manner that best suits the needs of each youth and family, including preferences related to provider location, specialties, spoken languages, gender, and cultural aspects. Additionally, the IACCT ensures family engagement in the decision making process and throughout the course of treatment.

At this time, we would like to expand our IACCT provider network. We are recruiting participation from our network of crisis stabilization providers with the following prior experience:

- Care coordination
- Diagnostic/psychosocial assessments
- Working with children and families
- Knowledge of Virginia's system of care is preferable

Additionally, providers must meet the minimum requirements:

- Complete Magellan's Adverse Childhood Experiences (ACES) web training
- Currently hold or obtain Child and Adolescent Needs and Strengths assessment (CANS) certification (available on Magellan's provider web portal, www.magellanhealth.com/provider)
- Have at least one staff member that holds active licensure as a licensed mental health professional (LMHP)

The reimbursement rates are as follows:

- Initial IACCT Process: \$250
- Re-Assessment(s): \$120

If you would like more information on contracting as a provider for this service, please send your response to VANetworkQuestions@magellanhealth.com. Please reference “IACCT Recruitment” and your agency’s NPI in your email.

We encourage you to review information about IACCT and the residential program posted on the Magellan of Virginia website, including **an introductory webinar regarding the process**:
