

## Provider Notice

### **FINAL UPDATE: Registration Requirement for Crisis Services Authorization Requirement for Crisis Services with GAP**

Crisis services require registration. Based on regulation changes, registration of these services must occur within one day of the service. This includes:

**Crisis Intervention Services** - for reimbursement of this service, registration with Magellan is required within **one business day** from the provision of services or completion of the service-specific provider intake - whichever occurs first. This is the same for GAP.

**Crisis Stabilization Services** - the provision of this service to an individual shall be registered with Magellan within **one calendar day** of the completion of the service-specific provider intake to avoid duplication of services and to ensure informed care coordination. For GAP, crisis stabilization services require a service authorization to be submitted within **one calendar day** of the completion of the service-specific provider intake.

If you have any questions, please contact Magellan: 1-800-424-4046.
