

## Provider Notice

Magellan Intensive In-Home and Crisis Stabilization Providers:

In our efforts to provide members with ease of access and to avoid authorization and billing issues, we have updated the Magellan Claims system. Intensive In-Home Services (H2012) and Crisis Stabilization (H2019) may now be billed during overlapping time frames on the first and last days of service only.

This enhancement will allow you to bill for services provided to a member during times of crisis without difficulty, regardless of which service was billed first. The update went into effect on **July 28, 2015**. From this date forward, these two services will be able to overlap on the first and last days of service only.

If you have any questions about this, please feel free to contact Magellan at 1-800-424-4046
