

Provider Notice

Magellan of Virginia is committed to reducing administrative burdens on providers by increasing the functionality of the provider website. Effective Friday, June 26, 2015, via the Magellan provider website, providers have the ability to update submissions that have not already been authorized or denied. Requests in pended status can now be edited or updated with additional information. Rather than submitting requested additional information for a pended case via fax, providers are now able to submit through the Magellan provider website portal.

Please see below instructions and screenshots for updating a request that is in pended status. If you have questions, please call Magellan at 1-800-424-4046.

1. Log in to www.magellanprovider.com
2. Click on "VA DMAS Registration/Auth" under "My Practice"

3. Locate your request with a Pended status and click on "Pended."

Your Prior SRA Requests for the search parameters above

Submission Date	Reference #	Member Name	Service	Status
06/16/2015			Intensive In-Home Services	No Further Action
06/18/2015			Therapeutic Day Treatment (TDT)	Approved
06/19/2015			Therapeutic Day Treatment (TDT)	Approved
06/19/2015			Therapeutic Day Treatment (TDT)	Denied
