

## Provider Notice

This is being sent on behalf of the Virginia Department of Medical Assistance Services (DMAS). Given the unprecedented nature of the COVID-19 state of emergency and its effect on the way substance use treatment services are offered to Medicaid members, DMAS is offering two web-based learning opportunities conducted by expert consultants:

- Tele-behavioral health in the time of COVID-19
- Prescribing Medications for Opioid Use Disorder via telehealth during the COVID-19 pandemic

Each webinar will be offered live during two separate sessions. They will also be recorded and archived for those who cannot attend the live sessions.

Please view the [DMAS announcement](#) for webinar times and profiles of the presenters. **Please note the dates on the "DMAS Announcement" flyer are clickable links and call-in details will be provided once the link is selected.**

Thank you for everything you do to support Virginia Medicaid members. Please contact Jason Lowe at [jason.lowe@dmas.virginia.gov](mailto:jason.lowe@dmas.virginia.gov) with any questions about the upcoming webinars.
