

Provider Notice

This is a correction to the [email blast](#) that was sent on June 29, 2020 regarding the Remittance Delay Fiscal Year End.

This is a reminder that the 2020 Appropriation Act requires that the remittance that normally would have paid on Monday, June 29, 2020 will instead be paid on Monday, July 6, 2020.

This annual delay was originally communicated in the Department of Medical Assistance Services (DMAS) Medicaid Memo of May 14, 2010. All claims will be processed as usual based on the date they are received. Furthermore, providers will be able to verify claims status information without disruption.

Providers should plan accordingly and prepare for this delay in claims payment. DMAS will not issue advance pays associated with this delay.
