Virginia Medicaid: January Substance Use Disorder Training and Technical Assistance Webinars

The Virginia Department of Medical Assistance Services (DMAS) SUPPORT Act Grant team is excited to be offering training and technical assistance webinars in the upcoming New Year. These technical assistance and training webinars are designed to increase substance use disorder (SUD) knowledge and to provide support to anyone who serves Medicaid members with SUD. The overall goal of the webinars, as well as other grant activities, is to increase addiction and recovery workforce capacity while also creating a culture of understanding, empathy, and support for individuals with SUD in various workforce settings. Please see below for information on the upcoming January webinar topics, schedule of events and registration links. Webinar slide decks are available on the DMAS SUPPORT webpage: <https://www.dmas.virginia.gov/#/artssupport>.

Automated closed captioning (CC) is available for these webinars with real-time captions that will run simultaneously with the presentation. The streaming text is available through Hamilton Relay Remote Conference Captioning (RCC). We recommend opening a second window with the Hamilton Relay link provided and resizing it in such a fashion that it appears below the webinar screen. This allows the viewer to see both the webinar and its associated text/graphics while also being able to comfortably view the real-time captions. The complete webinar schedule along with the closed captioning links are available on the DMAS SUPPORT Act Grant Webpage

(https://www.dmas.virginia.gov/files/links/5668/Winter%202020%20&%202021%20Webinar%20Schedule_Final.pdf).
